

Kierunek	Specjalność (w przypadku studiów II stopnia)	Temat pracy w języku pracy	Promotor - imię	Promotor - nazwisko					
Prace magisterskie									
Geologia stosowana	Economic Geology	Petrological and geochemical characteristics of giant gypsum intergrowths from outcrops in the Nida Valley area	Krzysztof	Bukowski					
Geologia stosowana	Economic Geology	Petrological characteristics of pegmatite anhydrite from the Klodawa dome.	Tomasz	Toboła					
Geologia stosowana	Economic Geology	Inclusions in large halite crystals from the G-42 hole of the Góra salt dome.	Tomasz	Toboła					
Geologia stosowana	Economic Geology	Post-mining areas in Krakow as a form of protection of urban space	Edyta	Sermet					
Geologia stosowana	Economic Geology	Tradition and modernity of exploitation of sulfur deposits	Edyta	Sermet					
Geologia stosowana	Economic Geology	Chemical and mineralogical composition of selected slag fractions from the Thermal Waste Treatment Plant in Kraków	Barbara	Bielowicz					
Geologia stosowana	Economic Geology	Chemical and mineralogical composition of 0-5 mm fractions of bottom ashes from the Thermal Waste Treatment Plant in Kraków	Barbara	Bielowicz					
Geologia stosowana	Economic Geology	Analysis of the petrographic composition and coal quality of coal from a Khe Cham II-IV mine in Vietnam.	Barbara	Bielowicz					
Geologia stosowana	Economic Geology	Analysis of the petrographic composition of coal from Szczerców deposit	Barbara	Bielowicz					
Geologia Stosowana	Economic Geology	Origin of zincian dolomites from the Selac area, Kosovo: supergene weathering or hypogene alteration and implications for Zn-Pb exploration	Jaroslav	Prsek					
Geologia Stosowana	Economic Geology	Study on Pb-Zn-Ag carbonate-replaced mineralization from Janjevo, Vardar zone, Kosovo	Jaroslav	Prsek					
Geologia Stosowana	Economic Geology	Bismuth mineral association from Liden area, Västerbotten, Sweden	Jaroslav	Prsek					
Geologia Stosowana	Economic Geology	Mineralogical study of Pb-Zn-Ag-Cu vein/skarn-type mineralization from the Guajaraz mine near Toledo, Spain.	Jaroslav	Prsek					
Geologia Stosowana	Economic Geology	Compositional variation of dolomitic alteration as a possible exploration vector - the example of the San Jose deposit, Cantabria (Spain)	Jaroslav	Prsek					
Geologia Stosowana	Economic Geology	Mineralogy and origin of Sn-W bearing greisens from Sudety Mountains, Poland.	Jaroslav	Prsek					
Geologia Stosowana	Economic Geology	Mineralogical study of Kupferschiefer type of mineralization: example from Wielowieś area.	Jaroslav	Prsek					
Geologia Stosowana	Economic Geology	Casiterite occurrences in western part of Sudety mountains.	Adam	Piestrzyński					
Geologia Stosowana	Economic Geology	Gold in polish placers, evaluation, try of recovery.	Adam	Piestrzyński					
		Wpływ zagospodarowania złóż miedziowo-srebrowych Polkowice i Sierszowice na ekonomiczną i rynkową wartość KGHM Polska Miedź S.A. – studium ex-post".	Mariusz	Krzak
