

Job Title: Graduate Geologist

Company: Stevin Rock

Location: Ras Al Khaimah, United Arab Emirates

Job Type: Full-time

Salary: Competitive

About Stevin Rock

Stevin Rock is one of the largest quarrying companies in the world. It operates a number of quarries in the UAE, producing limestone, granite, and other types of rock. The company is committed to sustainable quarrying practices, and its products are used in a variety of industries, including construction, oil and gas, and cement.

Job Summary

We are seeking a highly motivated and enthusiastic graduate geologist to join our team in Ras Al Khaimah. The successful candidate will work closely with our experienced geologists to support our quarry operations and geological surveys. The role involves conducting geological mapping, core logging, and geotechnical investigations, as well as analyzing geological data and contributing to technical reports. In addition, the graduate geologist will work collaboratively with other teams within the organization and must have excellent communication skills.

Key Responsibilities

- Conduct geological surveys and mapping, including the collection and analysis of geological data.
- Log drill core and maintain accurate geological records.
- Assist in the development of geological models and provide input into technical reports.
- Conduct geotechnical investigations and assist in the assessment of geological hazards.
- Work collaboratively with other teams within the organization to ensure efficient and effective quarry operations.
- Maintain a high level of health and safety awareness and compliance.
- Stay up to date with industry developments and technologies.

Technical Competencies

- Knowledge of geology, including mineralogy, petrology, and sedimentology.
- Experience in geological mapping and core logging.
- Familiarity with geotechnical investigation techniques.
- Ability to analyze geological data and contribute to technical reports.

- Strong computer skills, including experience with GIS and geological modelling software.

Behavioural Competencies

- Excellent communication and interpersonal skills.
- Strong analytical and problem-solving abilities.
- Attention to detail and accuracy.
- Ability to work collaboratively in a team environment.
- Self-motivated and able to work independently.
- Flexibility and adaptability to changing priorities and deadlines.

Qualifications

- Bachelor's degree in geology or a related field.
- Strong academic record with a minimum GPA of 3.0.
- Fluency in English is essential, and proficiency in Arabic is desirable.
- Previous internship or work experience in geology or a related field is preferred.

If you are a recent graduate with a passion for geology and a desire to work in a dynamic and challenging environment, we encourage you to apply for this exciting opportunity with Stevin Rock.
